House Info

The facility was opened in January of 1992. The main auditorium can seat from 907 to as many as 1319 with opening the two pods. The Little Theatre Pod seats 206 and features a small stage with self-contained computer lighting and sound. The Lecture Pod seats 213 and is ideal for group meetings.

Stage Facilities

The main stage has 4000 sq. ft. of performance and wing space. The proscenium is 40 ft. wide and 17 ft. high. There is a removable floor which makes our thrust over the orchestra pit 20 ft. from the center to the grand curtain. The distance from the grand curtain to the back cyclorama is 32 ft. leaving 5 ft. 4 in. to the backwall for crossovers. The distance from the stage floor to the grid is 56 ft. Performance entrance side is stage right and the mechanical side is stage left. The Grand curtain is pewter and can travel or fly manually. The stage also has 3 pairs of 14 ft. wide black legs, a pewter valance, 3 black, borders and 3 black, stage travelers. There is also a white, flat back cyclorama as well as a white and a black, full stage scrims available. A Garrison size American flag is available.

The fly system has 21 usable line sets with the lock rail on the second level, stage left and it is a single-purchase, counterweight system. The 4 motorized, electrical battens are operated from the floor, stage left. All house electrics are 20 amp., twist-lock connections. There are some adapters and cables for extensions and conversions available.

Off-loading can be accomplished by a ground, stage level, loading dock on stage right. There is a set of double doors with no center brace (6'11" x 5'11") and roll-up doors allowing a 10' x 10' entrance.

Orchestra Pit

The orchestra pit measures 40' x 9'5" and 8'8" deep. Equipment inventory for the pit is variable and necessary equipment should be prearranged prior to load-in.

Lighting

Colortran Encore 48/96
Viewpoint LCD Stations (Stage & Booth)
